

IMAGE SUBMISSION GENERAL INFORMATION

Each month, from October to April, we dedicate one of our meetings to an Evaluation Night. Members are invited to submit both prints and digital images to be evaluated by a panel of three judges. Scores and constructive comments are given on each image, to educate members, and to improve the overall level of members' photography.

We do not accept film slides at this time.

Images are evaluated in the following "themes" or "categories":

THEME	TYPICAL SUBJECT MATTER
Monthly Challenge	A different theme for each evaluation night, meant to challenge your creativity.
Architecture	Cityscapes Interiors Exteriors Shapes & Patterns
Creative	Abstract Altered Reality Composites Filters Gone Wild
Documentary	News & Events Sports & Action Photojournalism Travel Street Social Investigation
Nature	Nature Photography Wildlife Photography
People	Portraiture Glamour Environmental
Still Life	Arrangements Setups Dioramas
Open	When it just won't fit anywhere else

Up to 2 digital images and/or up to 2 printed images, in any theme, can be entered by each member each month.

Photographs entered in the Monthly Challenge theme must conform to that theme. Photographs entered in any of the other categories must conform to the category requirements rather than the theme. Further definition of these other themes or categories are provided in the [COPS Image Evaluations Guide](#).

The Monthly Challenges for the current year are listed below, along with the image submission deadlines. Prints are submitted to the Print Coordinator at the meeting **one week before the evaluation night**. The corresponding **digital files** for the prints and all **digital submissions** are due via email by **midnight one week before the evaluation night**.
