#### **Directions**

Travel north on Highway 97 thru Vernon. Keep going north until you reach Armstrong. The fair grounds are located off to the left side of Highway 97.

If you travel by your own vehicle, let's try and stay together and park in the same area. If we should get separated, please call **Ron's cell phone 250-212-3408** so we can hook-up at the exhibition.

#### **Photo opportunities at the fair.**

1. You are of course free to photograph whatever you like, there are thousands of opportunities at this fair. **But the main purpose of the event is to photograph people.** Backs, fronts, families, close-ups, long shots etc. etc. Remember to ask permission to photograph someone. Normally, I would suggest release forms but I think we can throw caution to the wind and risk it this time. As long as you are not using the pictures for commercial purposes or on web sites you should be okay. However, if someone challenges

you, please delete their photo from your camera and show them that you have deleted it. Be much more careful photographing the professional cowboys and cowgirls in the rodeo. They are pros and this is their livelihood. Ask permission.....

During the rodeo itself can be different, but once again you do not have permission from either the individuals or the Professional Rodeo Cowboy's Association to use the photos you take for commercial purposes or on any web sites.

You may wish to stay for the rodeo and for the lights of the midway. You are free to do so. But if you have car pooled, please make sure that everyone is in agreement as to what time everyone wants to leave.... Remember, it's a very long walk back from Armstrong to Kelowna.....,

Have fun everyone... See you at the ECCO Centre parking lot.
